

Mid-South Specials January – April 2012

Cummins Offers Significant Discounts on Select N14 and NT Parts

You have a lot of money invested in your engine, and we realize you count on it every day to do its job in a reliable manner. So when you need a repair or an overhaul why settle for anything less than Genuine Cummins Parts. And now there are even more reasons to choose Genuine Cummins Parts. Prices have been significantly reduced on select Cummins New and ReCon® parts used on N14 and NT series engines. These are components that you need to keep your engine running at its peak, including select parts such as water pumps, overhaul kits, cylinder heads, gasket sets, oil pumps, and air compressors.

By choosing these Genuine Cummins Parts you will see benefits in the following ways:

Water Pumps:

- Top-grade facing materials resist wear and maximize seal durability.
- A unitized seal eliminates glue joints and prolongs service life.
- Spring tension between the seal and seat is optimized to reduce friction.
- Installation gaskets and seals are included at no extra charge.

Overhaul Kits:

- Allow you to regain or improve fuel economy by replacing worn components.
- Minimize the chance of downtime and cost associated with unexpected failure.
- Incorporate newest technology and product improvements.
- Extend engine life.

Cylinder Heads:

- Improve performance and fuel economy.
- Optimize durability and reliability.
- Guarantee precise injector protrusion.
- Provide as new performance and economy.

Every Cummins Genuine New and ReCon part:

- Meets exacting Cummins specifications.
- Utilizes advanced materials.
- Incorporates state-of-the-art Cummins design technology.
- Is backed by a full Cummins warranty and supported by a worldwide service organization.

Call or visit us today, and see your money go a lot further with Genuine Cummins Parts.
